

Ground truth (G)

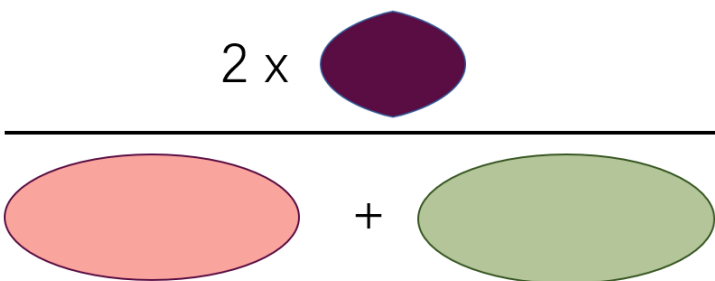

Predicted Segmentation (P)

Intersection

$$\text{Intersection over union} = \frac{\text{Intersection}}{\text{Union}} = \frac{\text{Intersection}}{\text{Union}} = \frac{|G \cap P|}{|G \cup P|}$$

$$\text{F1 score} = \frac{2 \times \text{Intersection}}{\text{Ground truth} + \text{Predicted Segmentation}} = \frac{2|G \cap P|}{|G| + |P|}$$

Supplemental Figure 5. Formulas of the intersection over union and the F1 score.
